

CONGRATULATIONS STATE OF CALIFORNIA,
DEPARTMENT OF WATER RESOURCES

This New Manitex 2277C (22 Ton capacity) boom truck was just what the Department of Water Resources needed when it was time to replace the existing boom truck. Water Resources needed a crane with great lifting capacity and handle a payload to carry all of their equipment. They teamed the crane with a new International 7600 series tandem axle truck equipped with an Allison automatic transmission for ease of driving. The package met all of their expectations and more...
